

Listening Meetings Question 5: What number of worship services would you like?

- One traditional service
- One mixed service (add some non-traditional music)
- Two: one traditional, one praise
- Two: one traditional, one experimental ("let's figure it out")
- Concerns about Sunday school when there is only one service; don't feel that Sunday school concerns were taken seriously in making this decision
- Any number as long as it/they are full
- One service until we need another//
- One that includes children time and allows for consistent time for Sunday school
- One service at 8:30
- One service at 10:00
- There will have to be a compromise
- Pastors' time is more efficient with one FULL service
- Consider Praise Service
- One if not merging with Trinity
- Need enough people before having two services /
- Outdoor service was well-attended
- Like the 8:30 service with Sunday school after
- Two—one Sat and one Sun
- No less than two if resources are available; one traditional, one other (praise, contemporary)
- Two with (more than a few minutes) fellowship between (one traditional, one contemporary)
- Have 8:30 service at 9:00
- More than one—want options for times
- Two: early traditional service, later contemporary service with Searchers between //
- Hard for parents to plan/keep up when time of service(s) changes; need consistency
- One on Sunday morning, another at a different time
- However many we have, have a children's message
- One service (with everything) until we need another
- I would like to have an 8:30 and 11:00 service. I also like the 10:00 service this time of year.
- weekly
- two services: 8:30 and 10:30 would be great
- doesn't matter as much to me as doing a better job integrating the online part of the congregation and getting leadership to refocus time and energy on community-building in the congregation
